

誠邀 貴校學生參加《瞳見光明講座計劃》

瞳見光明講座計劃

眼疾是全球最受忽略的殘疾，護瞳行動的講座教育下一代保護眼睛，關注眼疾在全球為患者帶來的影響。

為何要了解眼疾？

- 全球有9,100萬兒童視力受損，但在大部份情況下，幾乎一半是可以預防或治療
- 兒童大部份的早期學習是通過視覺進行的，視力受損會影響成長發展
- 兒童視力障礙的影響會延伸至人生的各個階段

講座內容：

- 根據學校和機構的需要和課程設計
- 內容可包括眼健康知識分享、全球眼疾情況、故事實例、國際非牟利組織的工作情況，及互動環節等

講座形式：

- 每節講座大約1小時，到校或網上形式，可以廣東話/ 英文/ 普通話舉行，適合幼稚園至中學生參加

Invitation to participate “Eye Health School Talk”:

Eye Health School Talk

Eye disease is the most neglected disability in the world, and it is imperative to educate the next generation to protect their eyes.

Why learn about eye diseases?

- 91 million children with vision loss globally, yet in many cases, almost half can be prevented or treated
- Evidence shows that a large portion of a child's early learning is through vision
- Effects of childhood visual impairment stretch far into later stages of life

Content:

- Content will be provided according to the needs and curriculum design of schools and institutions
- Content can include eye health knowledge, global eye disease situation, real life stories, the work of a global NGO and interactive activities, etc.

Format:

- Each session is about 1 hour, on-campus or online, and can be conducted in Cantonese/English/Putonghua, suitable for Kindergarten to Secondary School students
